

[2026 14th International Conference on Intelligent Systems and Embedded Design \(ISED\)](#)

18 - 20 December 2026

The conference aims to foster collaborative endeavors and unveil cutting-edge research that can further drive innovation and development in the interdisciplinary domains of high performance or low-power circuits, algorithms, electronics, embedded systems, AI chips, and SoC technology, Generative driven design, AI/ML driven intelligent systems, etc.

Location: Warangal, India

Event Format: Hybrid (In-person and Virtual)

Sponsors: IEEE Council on Electronic Design Automation; National Institute of Technology Warangal

Call for Papers Deadline: 15 August 2026
